Adopt-a-Highway
Spring Clean
March 21-27, 2010

Your Adopt-a-Highway group is invited to join us for Spring Clean Week, March 21 –27, in conjunction with Commonwealth Cleanup Week, as our volunteers from across the state show unified support for a cleaner environment.

Please review your Adopt-a-Highway contract and encroachment permit for safety information and for proper procedures to follow during the outing.

Arrangements for obtaining trash bags and required safety vests may be made at the state maintenance facility in your county, Monday through Friday, 8 a.m. - 4:30 p.m. Please let them know the date and time your group plans to participate, as well as the number of participants expected.

Once you have completed your pickup, leave trash bags on the side of the highway. Maintenance crews will collect them for disposal. You should return your supplies and safety vests to the county maintenance facility and fill out and return the Cleanup Notification Report to the Adopt-a-Highway coordinator so we can document the credit for your group. Note: the Cleanup Notification Report is the only accounting method that we have to rely upon, and groups that fail to respond with the survey may be dropped from the program without notice.

Cleanup Notification Report

Group Name & Telephone Number:		
County	Date of Pickup	Number of Participants
Road Name/Number	Number of Miles Covered	
Number of Bags Filled	Hours Spent Cleaning	

Fax or mail to your local district coordinator
